A special thanks to all the spiritual readers from all walks of life. Man's spiritual journey is infinite and starts in the Universal Mind. One must learn and trust in the undeniable laws governing the human spirit.

Dr. Turi

Introduction

This material will allow you to uncover the secrets of the Universal Mind and know all you need to know about a friend, a lover, a family member and even your own self. Understanding and following this simple technique will allow you to read a person almost immediately and to a great extent, anywhere, anytime with uncanny accuracy. Keep in mind that Nostradamus' rare method of Divine Astrology or Astropsychology is used in this original method. Dr. Turi's style is unique and does not reflect the modern approach of mundane astrology that you may have read, learned or practiced.

- This is how we will proceed:
- (1) Familiarize yourself with the Astro-Psychology Sun Sign Characteristics and read this section a few times.
- (2) Master the Housing System and understand the twelve specific areas of the human experience.
- (3) Build up a subconscious reflex by assimilating all the information from the Housing System for each sign of the zodiac.

As pretentious as it may sound, you will know more than any and all psychologists, psychiatrics, so-called psychics and modern astrologers combined together.

“Man is superior to the stars if he lives in the power of superior wisdom. Such a person being the master over heaven and earth, by means of his will, is a magus and magic is not sorcery but supreme wisdom.”

— *Paracelcus*

Important Note from Dr. Turi:

Born and raised in Provence, France, I rekindled and only exercise Nostradamus' 16th-Century Divine Astrology method. This formula does not reflect the modern astrology disciplines you may use, study, or practice. Realize that over 500 years ago the famous Prophet did not use a watch or any sophisticated computers. Thus, like the great Seer, I investigate the outer space and the Universal Mind with my inborn spiritual telescope. A "microscopic attitude" will not help anyone to gain the golden key of spiritual knowledge. This limited, exploitative attitude is for "astronomers" who have long lost their cosmic consciousness with their rigid mathematical minds. We have all heard of "not seeing the forest for the trees." Every one of them is aware of the twelve constellations of the Zodiac; somehow it is still impossible for them to pass the limitations of their five rational senses.

To penetrate the intuition, its very domain, and decode the subtle meaning behind each symbol does take more than mere numbers. Realize that Divine Astrology is an extremely old celestial art and a very complex science and must be practiced as such. Not everyone is blessed with the "gift" needed to assimilate, understand, and translate correctly the heavenly dexterity of the Creator. That is why a section of the bible clearly mentions, "I will talk to you, but you won't hear me! I will present myself to you, but you won't see me!" God speaks to us within his own manifestation and through his Divine light only. Only those willing to expand their cosmic consciousness will be able to "perceive and receive." Be curious, be critical, keep an open mind and don't let induced religious fears stop you in gaining a new light. Simply "ask, and you shall receive" the understanding of God's celestial manifestation. For those born on the cusp of any zodiac sign, simply refer to the month of your birth, which reflects the exact constellation of your nativity. Divine Astrology, as practiced by Nostradamus, is the original way at looking at the stars, as did the great Seer. My students have found it to be incredibly accurate!

In all affairs involving the mind and spirit, traditionalists and scientists alike are missing the obvious. Looking down will not bring the answers they are so desperately looking for. It is above and in the Universal Mind that one will find the golden keys to what it means to be human.

Sun Sign Characteristics

Philosophical Astro — Poetry by Brigitte Turi

Mars Governs the Aggressive — Warlike and Impatient Constellation Of Aries

**All will hear my views and voice
Trial and error is my school of choice
Like a dragon, dashing and daring I appear
Fighting for those that I hold dear
I am ARIES, child of Mars.**

— Characteristics For Those Born In April

Aggressive Mars controls the month of April. This planet traditionally rules the impatient sign of Aries. These souls are born leaders but because of their natural impatience they are also prone to learn by their mistakes. The strong, impatient desire to succeed must be controlled and hasty decisions avoided. They are perceived as the warrior of astrology. More than any other sign of the zodiac, those born in April must learn steadiness, organization, and most of all diplomacy. When confronted, grace and charm does not really belong to them. Martian souls possess strong leadership and engineering abilities, and the men of this particular month are attracted to dangerous endeavors, sports, speed or working for Uncle Sam. Due to their "turbocharger" personality, they are also accident-prone to the head and should protect it. They must also learn to listen to others, control impatience, focus on their needs steadily, and finish what they have started. At work, the "red" Martian personality will be felt and may hurt those who are more sensitive; thus, damaging the chances for respect and promotion.

Their explosive behavior is due mainly to an inborn inferiority complex, and they must learn not to take opposition personally. The "childlike" attitude could attract manipulative spirits wishing to structure or use the immense creativity and energy of Mars' competitive spirit. They do love home and take responsibility with their family. Nevertheless, they prefer to be where the action is. Providing they do learn patience, tolerance, and diplomacy, there is no limit where Mars will take his children. The main lessons for those born in April is to learn all the diplomatic and loving traits of the opposite, Venus-ruled sign, Libra. Those born in the month of April must assume a diplomatic attitude when dealing with others and when dealing with corporate money.

Venus Governs the Beautiful and Financially Oriented Constellation Of Taurus

Luxurious and elegant

I have the memory of an elephant

Loving all of life's finer pleasures

Gifted am I at acquiring more coffers and treasures

I am TAURUS, child of Venus.

— Characteristics For Those Born In May

The month of May is governed by the affectionate planet Venus and traditionally by the reliable sign of Taurus. These souls are seen as beautiful, stubborn and practical. They are the moneymaking sign of the Zodiac. Those born in May have a lot to offer to others, providing they control their strong insecurity complex and authoritarian attitude. Taurus is gifted with organization and many are attracted to the professions of banking, real estate, the arts, computers, radio, television, psychology, aeronautics and investigation, just to name a few. Many "Bulls" will reach fortune and enjoy the security of a beautiful and big house. Strong and dominant, they have inherited a deep intuition, tremendous common sense, and a powerful will. This Venusian group must learn to control all negative thoughts about jealousy, stubbornness, and insecurity. In doing so, Venus' constructive power can be channeled towards love, gracious mental exchanges, diplomacy; and produce the finest of all hosts and artists. However, behaving in a stubborn and unattractive manner is a serious downfall for them. Their down-to-earth approach to life must not interfere with their spiritual growth. Part of the Bull's challenge is to keep an open mind to the world of the spirit and use the metaphysical information to ensure financial growth and material security. The strong desire for riches is legendary for the souls born in May, but in some way they will also promote the New Age of Aquarius. They courageously handle the difficulties of life with a solid attitude, and the advanced ones possess nobility of purpose.

The women of this sign (like those born in November) are somewhat classic, intellectual, magnetic, sensitive and will always combine Venus' beauty and sensual magnetism to attain their goals. As a rule, Venus women are picky about their mates, so it is important that they marry someone whom is well respected. Venus, your ruler, can be surprising in her rewards to you and when she does it usually lasts forever. Keep in mind to respect the Universal Law (Moon's fluctuations), as your awareness and planning will become a major contribution to reach many of your dreams.

Mercury Governs the Nervous and Witty Dual Constellation Of Gemini

Free-thinking and intelligent

You will not find me under rigorous management

You may think you know me well

Then my other half over you casts a spell

I am GEMINI, child of Mercury.

— Characteristics For Those Born In June

The witty sign of Gemini governs the month of June and traditionally is ruled by the planet Mercury. Souls reincarnated in the month of June are born intellectual, nervous, and adaptable. They are classified in Greek mythology as the “Messengers of the Gods.” On the negative aspect Mercury reflects the “Lord of the Thieves” because of their double-personality characteristics. As the rule, this monthly sign does well in communications, radio, language, photography, sales, movies and any type of public relations work. Their natural zest to experience life makes them impatient and unusually nervous. They are born with a gift of youth and a quicksilver mind enabling them to adapt easily to any situation.

Once the soul learns to focus and crystallize the mind, the potential to produce interesting publications of all sorts becomes a high probability. Due to their strong desire for security, many of them are attracted to real estate and the food industry. Their financial potential is unlimited if they respect the Universal Law controlling their Second House of income. The psychological field classifies mercurial children as having “Attention Deficit Disorder” (ADD). This “disorder” is due to a strong Mercury in their chart. Incidentally, President Clinton, Einstein, and myself were born with “ADD.” Contrary to what the field of psychology recognizes as an indisposition is actually a gift from God, as the soul is naturally rejecting traditional education.

Thus, if the teacher is mistaken, the Mercurial soul and his inborn sense of curiosity will help him to find the real truth, somewhere, somehow in life. Impatience, nervousness, mental curiosity, and a short attention span are the characteristics, and these have produced many a genius. Those born in June must not and will not follow long established dogmas. Whatever is taught and accepted by the majority of the students will be intellectually challenged by this natal peculiarity; thus, opening new doors to mental exploration. Promoters of common sense, you (like all air signs), have a low tolerance for stupidity. Nevertheless, basic education and discipline must be induced at an early age. Mercury (ruler of Gemini) is naturally in opposition to Jupiter (ruler of Sagittarius), which rules the codification of thoughts, dogmas, traditional education and religion. Mercury controls souls born in June and will always make them question all. Thus, expect notes from the teacher about class disturbances and your Mercury-ruled child to challenge the rules. Some of these children will, in the course of their lifetime, surprise many people (I am one of them!). A word of caution for those born in June: Always be alert when the Moon crosses the deadly sign of Scorpio at work, especially after the Full Moon.

The Moon Governs the Nurturing and Caring Constellation Of Cancer

**I am mother I nurture and provide
In my soul the physical and spiritual collide
I say, "ask and you shall receive."
But also "as you sow, so shall you reap"
I am CANCER, child of the Moon.**

— Characteristics For Those Born In July

The moon and the emotional sign of Cancer controls the month of July. Those born in July are strongly affected by the Moon's fluctuations, and family matters will always play an important part of their lives. They are classified as the "caretakers" of astrology. The Universal Law particularly touches this monthly sign, and their success depends on the awareness and practical use of it. Lunar children are distinctively gifted with food (cooking or eating it), real estate, and are strongly motivated by security. During the course of their lives, they usually attract to themselves a position of power or management. Thus, financial security, if they learn to recognize and synchronize with the flux of the Moon, will allow them to shine through their ability to amass riches and possessions.

They must avoid depressive thoughts of the past and control their powerful imaginations. Steadiness, organization, warmth, love and charm belong to them. July soul's inherited powerful emotions that can be channeled positively with music, singing, and the arts in general (country music is a Cancer/July vibration.). You are attracted to successful people (older or younger mates) and many Cancerian marry rich. The natural tendency to smother family members and friends at all times makes these souls admired and deeply loved. Nevertheless, they must learn to control sensitivity and participate with life outside of the home a little more. As a rule, all Moonchildren are great homemakers unless the soul selected a non-domestic Moon position such as Aries, Leo, or Aquarius. This sign, like all water signs do regenerate in research, science, and metaphysics. Many July souls tend to worry too much about their health and should adopt a more positive spiritual attitude. A word of caution for those born in July: Learn to let go of the wrong people and move on with life. O.J. Simpson was a Cancer.

The Sun Governs the Flamboyant and Majestic Constellation Of Leo

Powerful and Charming

All things living find me disarming

I step to the center of God's stage

In the books of history I have always a page

I am LEO, child of the Sun.

— Characteristics For Those Born In August

The month of August is governed by the all-powerful Sun and by the magnanimous sign of Leo. This solar sign reflects the dignified Sun's life force energy. The Sun is classified as "The Life Giver," and during the day it will outshine all the other planets. Leo souls have a lot to offer, providing they exercise control over the strong egos and authoritative nature of the untamed "King of the Jungle." Naturally gifted, those born in August are attracted to the professions involving the arts, public life, medicine, research, management, and any endeavor that could offer a form of fame in general.

Just as the Sun's rays penetrate the depths of the rainforest, you were born with the potential to bring and promote life to all that you touch. This monthly sign is fixed and strongly motivated by the will to succeed, and usually in the course of their lifetimes, Leo's do reach fame, power and fortune. Strong and dominant, those born in the constellation of Leo nurture the deep desire to organize and rule others. If the soul becomes too overbearing, he will be forced to learn and accept the lesson of humility and start right back from scratch. Destructive outbursts of emotions and unfettered pride are the enemy of the "King." He must positively direct and control the Sun's creative rays without burning himself or others.

Your challenge is to recognize the powerful Sun's energy and diligently work towards a better understanding of other creative life forces at work. Acting eccentrically and pride fully without forethought is your weakness. This monthly sign courageously handles the difficulties of life. The wise ones possess nobility of purpose. Women born in August are stunning, intellectual, magnetic, and attract others with their natural auric power. As a rule, the women of this sign are protective mothers. Still they should avoid being overbearing with their children. Health-wise, those born in August are born with a subconscious fear of death and decay, but nature gives them a strong mind and a robust body. Leo's tend to be weak and accident prone in the back, knees and joint areas (President Clinton was born in August and, busted his knee in Florida)! (A letter sent to the White House a year earlier had predicted that accident). A word of caution for those born in August: Use precaution and moderation when running or jogging.

Mercury Governs the Precise and Critical Constellation Of Virgo

**Cleansing impurities large and small
Don't think yourself immune, for I see all
Attending to every chore and task
Perfection being all that I ask
I am VIRGO, child of Mercury.**

— Characteristics For Those Born In September

The month of September is governed by witty Mercury and by the critical sign of Virgo. Those born in September are born intellectual, picky and tend to work too hard. They can become great writers and will combine logic and intuition in dealing with life in general. They are classified as the "perfectionists" in Astrology. As a rule, Mercurial souls do well in the fields of medicine, law, teaching, writing, designing, and office work. Many of them are refined artists. The downfall of this sign is sarcasm and an overly concerned attitude with trivial matters. Some young Mercurial souls are overwhelmed with health matters, while some ignore it completely. Letting the rational mind scrutinize everything can hinder Virgo's spiritual gifts and slow down their cosmic consciousness. This sign has a natural investigative mind, and many of them are involved with science, research, radio, television, newspaper reporting, computer programming, and the law.

The advanced ones are great leaders and masters in communication. For your information, Robert Shapiro and Marcia Clark, (O.J. Simpson trial attorneys) are Virgos and indicate the potential of this sign in terms of the law. As a rule, this sign is prone to headaches or head injury, eye and sinus problems. They are strongly advised to keep away from alcohol and narcotics. On the medical side, Virgo controls the elimination principle (bowels), and they could be their worst enemy by being overly concerned with health matters. An advanced Virgo soul will soon realize that diets that are too restrictive may cause just as many problems as over-indulgence. God designed our bodies as omnivorous; thus, our metabolisms are well equipped to deal with all types of food, including red meat. If your natural desire for perfection prevails and you eliminate this "red" source of food, you must then substitute it with different red foods such as red wine, hot peppers or other thermogenic foods. The balanced diet imposed by God must be respected to avoid digestive tract problems and a loss of "power" due to a lack of energy and body heat. A word of caution: If you happen to suffer headaches or migraines, you may find relief by walking barefoot on the grass (or close to a body of water) to regenerate from the earth's magnetic field. As a rule, all souls born in September are accident prone to the head and many may die a violent death. Thus, if you were born in September, do not take chances, especially during or after the Full Moon.

Venus Governs the Diplomatic and Peaceful Constellation Of Libra

**Lover of grace and harmony
Seeking the balance of matrimony
Though there are those that hold to opinions tight
I will see it in all the different lights
I am LIBRA, child of Venus.**

— Characteristics For Those Born In October

The month of October is ruled by the diplomatic planet of Venus and traditionally by the charming sign of Libra. Venusian souls are strongly motivated by a desire for justice and must create harmony in all areas of their lives. These individuals can easily be classified as "peacemakers" in Divine Astrology. They usually succeed in their careers due to their gentle personalities, sense of diplomacy and natural "savoir faire." They rarely learn by mistakes, but as a rule they must avoid prolonged indecision. Those born in October must respect the typical Libra's soul's purpose to achieve balance, emotional, financial, and spiritual stability during the course of their lifetime. Venus souls must learn decision making by following not only the rational mind but also their accurate intuitions. These folks possess a strong psychological aptitude, and do well in real estate, the food industry, the stock market, interior design, marriage counseling, and the arts in general. Still, they must focus on what they need first by using inner stamina and their practical and intuitive mind. These gentle personalities will be attracted to competitive people and you can expect many challenges from them.

These sensitive souls can be easily offended by the abrupt or assertive manner of business partners and should avoid taking remarks too personally. They love a good home and they like to be in the company of business-oriented partners where they can apply their tremendous diplomatic skills. Their downfall can come from their inner desire to educate themselves traditionally only. Many of them become librarians or religious leaders. As indicated by the scale, they must look at both sides of the coin and study it with both the traditional and untraditional means. In that respect, the limit of conventional education (psychology or religion) is overridden with a more advanced spiritual attitude (New Age and Astropsychology) to gain the answers they are looking for. The codification of thoughts (the law and religion) can only give them a one-sided attitude with life. To those born in October, balance and harmony can only be reached in exploring both the physical and the spiritual sides of the scale. Many of them are born philosophers and great teachers; likewise, they will travel far in search of the truth. The truth they are aiming for is right there, above their heads in the stars; not in the dogmatic books many Libras avidly read. A word of caution to those born in October: Stay clear of any and all chemicals, drugs, or alcohol. This bad habit could lead you into a hospital or worse in jail.

Pluto Governs the Mighty Constellation of Scorpio — "The Eagle or Lizard."

**Holder of all the secrets deep
Never speaking for they are mine to keep
For those who plunder without care
Tread carefully for I see you there
I am SCORPIO, child of Pluto.**

— Characteristics For Those Born In November

The month of November is governed by the dramatic planet Pluto, and traditionally by the intense sign of Scorpio. Gifted with a powerful will, November souls are attracted to the medical profession, the police force, government and investigation, just to name a few. They are classified as the "Eagle" (positive) or the "Lizard" (negative) in Astrology. These people are very mystic and, like all other water signs, they are attracted to the study of metaphysics. Unless you are aware of their innate "negative" qualities, you are well advised to play right or keep away from them. These souls carry with them an element of life and death, and their magnetic thoughts can reach anyone, anywhere, for good or for worse. Many young Scorpio spirits will experience despair and imprisonment during the course of their dramatic lifetime. However, the destructive energies of Pluto can be channeled positively to accomplish tremendous results. This sign rules the Mafia, the police force and the absolute power of creation or destruction, including sex. The message is quite clear when representing Pluto.

No one should take chances under his command. Realizing the Eagle in them and their own birthright of creation or destruction, these souls have no known fears in the face of death. Many advanced Pluto children will "fly" well above the destructive Lizard (his destructive emotions and legendary jealousy). Those born in November can use their inborn mystical gifts to succeed where many would fail. Strong, private and dominant, they have inherited a practical mind and an acute accurate intuition.

These karmic souls must learn to control their deep emotions, and at the same time, positively direct Pluto's ultimate power for the well being of society. They do regenerate themselves with investigation, spiritual growth and must uncover their unique mission in life, as one leading others towards the undiluted truth. The women of this sign are seen in Divine Astrology as "la femme fatale." They are sensual, classic, intellectual, reserved, and magnetic; tending to use sexual power and beauty to reach their purpose. However, the powerful Scorpio is weak with affairs of the heart and tends to be in love with love. A word of caution for Scorpio: Do not use your own stinger against yourself or society.

Jupiter Governs the Philosophical and Educated Constellation of Sagittarius

**I have traveled the worldwide
With naught but the law on my side
Yearning for the higher knowledge
All of God's creation as my college
I am SAGITTARIUS, child of Jupiter.**

— Characteristics For Those Born In December

The planet Jupiter and traditionally, the “Lucky” sign of Sagittarius govern the month of December. These souls are born philosophers, teachers, and intellectuals; they are classified as the “Truth Seekers.” As a rule, Jupitarian souls do well in professions related to the codification of thought, such as teaching, computers, aeronautics, law, religion, communications, radio, and language. Many of them are attracted to holistic healing and the world of sports. Their subconscious desire to travel foreign lands will take them far away, bringing back home the results of their learning to teach the rest of us. They are born with the gift of teaching and will always promote a form of purity in life. These people tend to do quite well in office work and can be extremely organized. Folks born in December inherited from the stars a quick mind and can keep up with anyone willing to listen to them philosophize.

Once the child of Jupiter realizes the importance of education and learns to focus on chosen goals, their ruler “The Lord of Luck” will throw many blessings to them. This sign has also the potential to produce interesting books, even novels. The young Sagittarius soul is too concerned with finances and must learn to give, so that he may receive help from the accumulated good karma. They must adapt to the saying, “to be a millionaire, you must act like one.” This sign rules the wilderness, the desert, and the Indians. A word of caution: Souls born with an overbearing Jupiter energy must guard against “the books;” their lesson is to realize that God cannot be confined to any man-made buildings, deities or any archaic doctrines. The advanced ones (truth seekers) will lead the rest of us towards the reality of God's manifestation through all creation. Realizing, learning, and teaching in the face of reality guides these individuals, along with the tools of the Creator; for this is a blessing, a guidance that will always direct them away from established religious dogmas; as this is their true challenge, their contribution to the world.
